

This is your SU and you own it!

QUIET ROOM ON CAMPUS –

The chaos of uni can be a lot at times; juggling lectures, making friends, and your own physical and mental health can be a challenge! Sometimes you need a minute alone in a quiet area to rest or relax. This area will be a space on campus where all students can go to take a minute for themselves. This will be an accessible room that students can use. It will have comfortable furniture, books, colouring, and other quiet activities for you to use.

REWARD SYSTEM - (ABOVE & BEYOND) -

Our student volunteers are amazing, and we wouldn't be the same without you. You really are the backbone of the su and your hard work deserves to be acknowledged! Course Reps, part-time officers, committee members, student council support and others all deserve to be appreciated. The "Above and Beyond" reward system would thank student volunteers for their hard work! Students would log their volunteer hours on our system and for each volunteer milestone they will receive a prize. All student volunteers will also be entered into the final competition and the student with the most hours logged will win a prize!

HOME AWAY FROM HOME PART 2 (STUDENT EDITION) –

Home Away From Home has been amazing and I have had so much positive feedback regarding it. It really helped students to meet new people, take a break from studying and get some free food. I would love to bring it back next year to provide fun, free/cheap events that all students are welcome to attend. I would also love to give students the opportunity to help me plan these events. From the activity itself to the food we eat, to the venue, I want students to help me plan these events to make sure you all get the best experience from it! This is your uni experience so you deserve to have a say in the events you attend.
